

## 'We Care, We Share, We Believe, We Achieve'

## **Childeric Primary School - SMSC Policy**

## **Aims**

At Childeric Primary School, the school motto: *We Care, We Share, We Believe, We Achieve* underpins everything we do. We aim to develop life- long learners who take ownership of their learning and responsibility for their actions. Our ethos ensures that everyone within the Childeric community is valued. Everyone is expected to both show respect and be respected.

## **Teaching and Learning**

SMSC permeates all learning opportunities at Childeric. Although it can be seen most explicitly in RE, PSHCE and lessons involving the Arts, the development of pupils' SMSC is inherent within the school ethos, the relationships between staff and pupils and in the engaging curriculum we offer. (**Appendix 1**)

### **Definitions**

## Spiritual Development

Pupils are given opportunities to develop spiritually through experiences which enhance:

- awe and wonder
- connection and belonging
- curiosity and mystery
- self-awareness
- refection

These can occur during any part of the school day e.g. listening to music, story time, assemblies, and school trips.

#### Moral Development

We encourage pupils to become morally aware so that they are more able to:

- distinguish right from wrong
- develop the ability to have an awareness of consequences for their own and others' actions
- have respect for others' needs, interests and feelings as well as their own
- explore their own and others' views and develop an understanding of the need to review and re-assess their values, codes and principles in the light of experience

#### This is achieved by:

- providing a clear moral code as a basis for behaviour which is consistently applied throughout the school
- promoting racial, religious and other forms of equality
- giving opportunities through the curriculum to explore and develop moral concepts
- providing a safe learning environment in which children feel able to express their views

- recognising and respecting the codes and morals of the different cultures represented in the school and wider community
- encouraging children to take responsibility for their own actions

## Social Development

We aim to develop socially aware children who are able to:

- adjust to a range of social contexts
- co-operate with others
- resolve conflict
- show respect for people, living things, property and the environment
- understand how societies function and are organised

### This is undertaken through

- identifying and promoting key core values on which school life is based
- fostering a sense of community with these common, inclusive values
- providing opportunities for pupils to engage in the democratic process and participate in community life
- providing opportunities for pupils to exercise leadership and responsibility

## **Cultural Development**

We strive to facilitate children becoming culturally aware and more able to:

- reflect on important questions of meaning and identity
- show an interest in the relationship between civilisation and the environment

## This is developed by:

- providing opportunities for children to develop their creative talents both within and beyond the curriculum
- ensuring that children become culturally literate
- encouraging children to reflect and learn about culturally significant events

For further detail of the specific aspects of school life and how they relate to SMSC please see Appendix 1

# Appendix 1 – Examples of how SMSC is promoted at Childeric

Pupils have a willingness to reflect on their experiences.  Pupils have a willingness to reflect on their experiences.  Pupils have a willingness to reflect on their experiences.  Pupils have a willingness to reflect on their experiences.
