

Thursday 28<sup>th</sup> January 2021

Dear Parents/Carers,

Thank you for your support over the past few weeks. We really enjoy receiving all of the fantastic learning from your children and we can see you are working very hard to support your children.

We are starting to trial live lessons using Google Meet and your child will have the opportunity to do this once a week with other children from the year group and their teachers. During the session they will do some English and maths learning as well as consolidating other learning they have been doing online. You will be informed by email what day you will attend. The lesson will be at 10.30 am and will last approximately 20 - 30 minutes. When your child joins please can their video be on and can they be muted (this allows them to hear instructions better and stop background noise). Please ensure they know how to unmute themselves to join in when asked, as the teacher is unable to do this for them.

For the first session it would be lovely if your child had something to share with the group. This can be a piece of learning, a toy or something they would like to tell us. We will then do a little bit of English, maths and science. Please could they have a pen and paper ready to show any answers.

You will receive an email the day before (or on the Friday for Monday groups) with the link for the meeting.

If you are already in a trial group, your day and time will continue as normal.

If you have any questions please do not hesitate to email us.

Thank you once again,

Year 2 team
